

Dr Alan D. Thompson

AI Consultant

Dr Alan D. Thompson is a world expert in artificial intelligence (AI), specializing in the augmentation of human intelligence, and advancing the evolution of 'integrated AI'.

Alan provides AI consulting and advisory to intergovernmental organizations including member states of the United Nations, European Union, and the Commonwealth. Alan's applied AI research and visualizations are featured worldwide, with citations in the University of Oxford's debate on AI Ethics in December 2021, and in the US Government's economic research report in February 2023. His 2021-2022 experiments with *Leta AI* and *Aurora AI* have been viewed over 3.5 million times.

Prior to his work in AI, Alan was a major contributor to human intelligence research and practice. As chairman for Mensa International's gifted families committee, Alan served two consecutive terms sharing best practice among 54 countries, and his work on gifted education was referenced in the Department of Education's High Potential policy. <https://lifearchitector.ai/about-alan/>

Selected speaking engagements, discussions, and media

- 2023 GPT-4 and Iceland. Opening seminar for ICAI presented to ministers and CEOs.
- 2023 ABC Catalyst. AI episode with Prof Jeremy Howard.
- 2022 Devovx Belgium (4,000 attendees). Opening keynote: *Artificial intelligence: You are here.*
- 2022 Financial Sense®. *AI Is Now Smarter Than the Average Human.*
- 2022 Australian Computer Society (1,000 reg). Keynote: *AI + prompt crafting beyond GPT-3.*
- 2021 White Mirror (hosted by Prof Anuraj Gambhir from SingularityU). *AI2021 seminar.*
- 2021 World Gifted Conference. *The new irrelevance of intelligence.*
- 2021 Google AI (Google Brain) round table. *Mind as algorithm.*
- 2019 Cambridge International Schools. *Elon Musk & Joshua Dahn's big questions for teachers.*
- 2018 Asia Pacific Gifted Conference. Keynote: *Integrated AI.* (Bangkok, Thailand).
